NOTE: All users must use two (2) applications to request (or maintain) access to the Michigan Care Improvement Registry (MCIR):

★ MILogin* (the State of Michigan’s [SOM’s] single sign-on portal)
★ Database Security Application (DSA)** (contains electronic versions of SOM access request forms/processes)

You must complete all steps in both applications to be granted or maintain access to MCIR. This means you must complete every step in this guide.

* You must have a MIlogin account before you can complete these steps. If you experience any issues with MIlogin, please contact the SOM Client Service Center: 517-241-9700 or 800-968-2644.

** If you experience issues with the DSA/MCIR steps, please contact the MDHHS MCIR Administrator: MDHHS-MCIRHelp@michigan.gov
All users must complete the following steps to request access to the Michigan Care Improvement Registry (MCIR). The form used to request MCIR access, the MCIR Access Request Form, is found within the Database Security Application (DSA).

Both the DSA and MCIR are accessed through MIlogin. You must request both the Database Security Application (DSA) link and the Michigan Care Improvement Registry link for your MIlogin Home page.

Users complete the MCIR Access Request Form to request initial MCIR access (new users), or to establish ongoing MCIR access (current users). All users then complete the MCIR Access Request Form on an annual basis to maintain MCIR access.

TIP: Most steps in this guide describe one-time processes – once completed, they do not need to be repeated. In fact, you may have already completed some!
